

Introduction About Al-Takamul

ORIGIN & VISION

AL-TAKAMUL Engineering Company for Electrical Supplies is a Palestinian enterprise dedicated to providing wide range of electrical materials and integrated solutions that serve all society sectors from public to professional and Hi-Tech.

AL-TAKAMUL was established in 1981 as "Kasho'u for Electrical Services and Supplies" until 1997, Then AL-TAKAMUL emerged as a result of a new strategy and necessary development to incorporate the new market trends.

Established with a group of engineers and specialists under the vision of providing new technology for industrial firms, electric utility companies and municipalities, and information technology wholesalers and providers, Al-Takamul pursue a track of educating itself and its markets with novelties and innovations.

AL-TAKAMUL source of strength and professionalism is the extensive expertise and market experience of its senior engineers combined with the enthusiasm, dedication, continuous training and hard work of its junior members.

STRATEGY

The name AL-TAKAMUL represents a true translation of its work strategy; problem investigating, implementing focused and integrated solutions with high quality supplied materials and tools and solid after sale support. The three cores of AL-TAKAMUL work strategy are:

❖ **Work Quality**

Provision of comprehensive, detailed, high quality materials and tools, to meet and exceed the client's needs and expectations.

❖ **AL-TAKAMUL Employees**

Continuing efforts in developing the performance of AL-TAKAMUL employees and technicians through intelligent selection, training and establishment of an environment where every engineer and member of staff has the opportunity to excel.

AL-TAKAMUL investing in highly qualified personnel and emphasis on new techniques and methodologies for continuous improvement.

❖ **Methodology**

Integrating scientific knowledge with accumulative experience, high quality and well known brands to supply the right material with the right solutions.
